# Avalux Heating Oil Additive

With

**Higher Burner Efficiency and Lower Fuel Costs**

## We Deliver Premium Heating Oil

**With Avalux Detergent Additive**

# The Premium Heating Oil Difference

Many heating oil retailers sell generic, run-of-the-mill fuel. **Not Us.** We deliver **premium heating oil** that contains the state-of-the-art **Avalux additive package**.

This additive package includes a **fuel enhancer** that maintains high fuel quality, a detergent that **cleans your fuel delivery system** and a **corrosion inhibitor** that protects your fuel storage tank from corrosion.

*Reduced nozzle spray,  
caused by deposits from  
generic, poor quality fuel.*

*Nozzle spraying additized,  
high quality heating oil, normally,  
into combustion chamber*

**Higher  
Efficiency**

Our additive **reduces service calls** and helps your heating system operate at **peak efficiency**, which extends equipment life, benefits the environment and **saves you money**.

No branded gasoline marketer would consider selling you gasoline without additives. Should your heating system run on poorer quality fuel than what you put in your car?

**We don't think so.**

We know you want and deserve high quality in all your fuels. That's why **we give the extra effort** and bear the extra cost to provide you with **premium additized heating oil**.

**Lower  
Cost**

## Your Satisfaction Is Our #1 Priority!
